

BUILDING PERMIT FEE SCHEDULE:

House (Living Area) = s.f. X 110.29 X .008

Porch = s.f. X 42.06 X .008

Garage: 5-A = s.f. x 44.15 X .008

Garage: 5-B = s.f. X 42.06 X .008

Basement = s.f. X 15.00 X .008

Finished Basement = s.f. X 42.06 x .008

Decks = s.f. X 15.00 X .008

Shed = s.f. X 42.06 X .008

Roofs = .008 per/ \$1,000

Pools = s.f. X 42.06 X .008

Wood Stove = \$50.00

Siding = .008 per/ \$1,000 : \$50.00 Minimum

Windows = .008 per/ \$1,000: \$50.00 Minimum

Occupancy: \$50.00

Calculating the square footage of a circle: Multiply the **square** of the **diameter** by 0.7854.

Example: 24' Round would be : $24 \times 24 = 576 \times 0.7854 = 452 \text{ s.f.}$

Roof: Multiply the # of squares by 100 to get the s.f. (1 square is 10 x 10)
