

We then start on our road to recovery by using the Big Book of Alcoholics Anonymous. In the Big Book we are given clear cut, specific directions for actually taking the 12 steps. "It is a design for living that really works."

Addiction is a disease which affects the lives of the entire family. It is our hope that you will find strength and hope whether you are living with active addiction or not. Our lives can and will improve as we apply the 12 steps to our lives.

Matthew A. Bertulli died on November 3rd, 2012 at the age of 27. His young life was abruptly ended by a heroin overdose.

Matt lived his life trying to reach out and help others in need. Through our grief and our learning to cope with his loss, we feel strongly that it is our duty to Matt to make a difference in the lives of others who are suffering from this addiction or who are trying to cope with a loved one's opiate dependence.

MISSIN' MATT FOUNDATION
<http://www.missinmatt.myevent.com/>

Community of H.O.P.E. is a support group created by family members and loved ones of people suffering from substance use disorder/addiction and the effect it has on our daily lives.

Our meeting offers a time to share your feelings, your fears and your concerns in a safe environment. We share our experience, strength, and most importantly, HOPE.

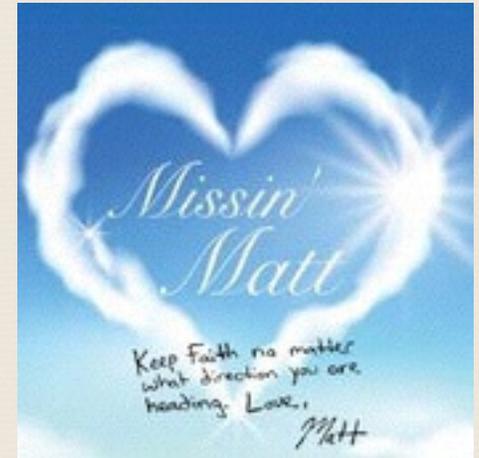

From time to time, H.O.P.E. will have guest speakers such as professionals and people in long term recovery, both loved ones and people suffering from substance abuse disorder to share their road to recovery.
