

Hike 3: Peppercorn Hill – Walleston Trail

59 Crockett Road

After parking, enter the trail, which is marked with infrequent blue metal blazes. At the W1 intersection, go left. You'll stay on the Walleston Trail past the W12, W10, and W9 intersections. At the split with W8, continue straight (don't go toward the power lines/swamp).

Stay straight after going over a wooden bridge that crosses a stream (there are no markers at this intersection).

At the W7 intersection, go right. Pass a trail on the left, continuing to follow the blazes. Pass the W6 intersection on your right.

At the W5 intersection, go right. Stay on this trail, eventually passing the side trail to the summit on the right. It's worth taking a quick detour to the summit. After the summit, the trail heads downhill.

Pass the W2 intersection. At the W1 intersection, go left to return to your car.
